

1- The exploitation of the Kaolin sand in Plateau Gounh- South Sinai

Name of opportunity	Exploration of kaolin sand																								
Sector	Mining																								
Organization	Ministry of petroleum and Mineral Resources Egyptian Mineral Resources Authority																								
The description	Extraction, exploitation, separation and processing of kaoline sand located in Jabal Al Marouh (Gounh Plateau) - South East of Sinai.																								
Opportunity available to the investor	The participation of the Commission in the establishment of a unit for processing and separation of sand in preparation Kaolin partial or total manufacturing, to participate body raw material and technical supervision of the project, the investor contributes to the financing of the project.																								
Project feed (raw material)	kaolin sand																								
Project Life	Determined through the feasibility study of the project																								
Initial investment cost																									
Project Location Governorate	South Sinai																								
Address	In Jabal Al Marouh (Gounh Plateau) - South East of Sinai																								
Land area (mine)	6 km ² (approx.)																								
The price of land (usufruct)	Annual rent is 60 thousand pounds

Type of contract	License to exploit by sharing system																								
Method of assigning the project	Establishment of a joint venture between the Authority and the investor for the project management																								
The proportion of readiness to start the project	100%																								
Approvals and licenses issued for the project	Egyptian Mineral Resources Authority - Ministry of Petroleum & Mineral Resources																								
Approvals required	Department of Armed Forces Operations - Ministry of Defense Environmental Protection Agency - Ministry of Environment																								

<p>Technical, financial and legal conditions</p>	<p>- Technical: taking into account the technical conditions and controls in the extraction, exploitation, separation and processing of kaolin sand.</p> <p>- Finance: Providing investment costs for the project.(ex. Letter of guarantee)</p> <p>- Establishment of a joint company with a legal personality between the Authority and the Investor in accordance with the laws, regulations and rules in this regard.</p>
<p>Preliminary feasibility study of the project</p>	<p>The study carried through the investment costs of the project as well as to determine the operation and production material costs and revenue.</p>
<p>Project Return (Net Profit)</p>	<p>Determined through the feasibility study of the project</p>
